

Geocaching Activity
Saturday July 9th
Information

This Saturday (the day before summer camp) Troop 188 will be putting on a Geocaching activity at Arapaho Bend Natural area in Fort Collins. We will meet at 9:00am at the north parking lot at the very end of East Horsetooth Road. The activity should be over by 12:00pm so that any last minute summer camp packing may be done. Bring bug spray, a full water bottle, and a GPS if you own one. Participants will be put in patrols and will be sent on multi caches. There will be a lot of candy during the whole activity and it should be lots of fun.

If you have any questions, contact Craig Heikes or John Heikes at 223-0983
