

**Troop 188  
Emergency Preparedness Drill  
Troop Mobilization  
October 25, 2005**

**In an emergency, it is important to be able to respond as quickly as possible. Communication lines, such as telephones and computers may not be available. This mobilization plan assumes that phones are working, and can be used to notify troop members.**

**The location of the tonight's meeting may be changed! You will not know where you are to respond until you receive a phone call, shortly after 7:00pm. THIS IS PART OF THE EXERCISE. In a real emergency you would be contacted and informed where to meet. If you have NOT received a phone call by 7:20pm, please respond to Linton Elementary School.**

**When you receive your notification call, fill out the following. Bring to the meeting and check in with SPL or ASPL on your arrival.**
