After 5 months of college you will no longer be able to cover your expenses. What will you do?

# Budget Challenge: What will you do?

- You have to support yourself for 9 months while in school
  - Your 9 month income from the Slop Shop is \$10,800
  - You started with a savings account of \$15,000
  - Your expenses going forward with out any unexpected needs should be \$34,400.
- You need approximately \$8,600 to make to the end of the year but would like a buffer of \$10,000 just in case.
- What can you do? Apply for a loan.

# Loans and Credit (Req 7)

- When you buy an item on credit you pay later.
- Credit is the money you receive from the lender. It is given on trust that you will pay it back over a given length of time at a stated interest rate.
- Based on your credit rating, income, ability to pay, and assets you qualify for credit.

# Loans and Credit (Req 7)

- When you apply for a loan you must understand the
  - Term of payment; how long to pay off?
  - The finance charge; what are the fees and interest
  - The monthly payment; can you afford it with your other expenses? Look at your budget.
- Can you get a deferred student loan to pay your education fees?

# Credit Card APR (Req 7)

# Project Planning (Req 9)

- Define your project: Weekend camping trip for your patrol to BDSR to study the migration of the purple goose.
- Develop a timeline of the steps you must accomplish in the next week to make this trip successful. It is Tuesday, you depart on Friday PM and return Sunday AM.
- List the details in the timeline. What do you need and who will do it? For example; purchase food and cooking, binoculars and habitat information on the goose.
- Identify a list of resources to make the trip successful. For example; SPL, patrol leaders, parents, scout leaders, quartermaster, naturalists, etc
- Develop a budget for expenses such as food, gas, and camp fees.
- As you work through the project did it take more than you first thought to accomplish?
- Does planning make sense?
