

John H Eagle Project

Saturday May 12th

MARK YOUR CALENDARS

9:00am to 12:00pm and 12:00pm to 4:00pm

My Eagle Project will be to do beaver management along the Poudre River in Fort Collins for the City of Fort Collins Natural Areas division. The project consists of removing chicken wire on trees and painting other trees with a sand/paint mixture to prevent beavers from cutting down those trees. I will have more information about my project (like the meeting location) in the next couple of weeks. Anyone who wants to help is welcome and they can stay as long as they like to help with the project

REMEMBER THIS COUNTS AS SERVICE HOURS FOR SCOUTS OR SCHOOL
